I invite all fans of virtual and real gliding pilots to the 10ᵗʰ "Lithuanian Virtual Gliding Championships 2021"!

This year we are flying:

In Lithuania, in a wonderful high-definition landscape created by Vaidotas Pašvenskas (JEG) and Tomas Butkevičius (TBZ). We will take-off and finish at Pociūnai airfield!

General rules:

Sport class – Mix class. A list of permited gliders and handicaps is provided in the appendix. Rules:

1. Results will be calculated with SeeYou program according to FAI/IGC rules. One change PM=1000, independently from distance and time.
2. We will have to comply with restrictions applicable in Lithuanian airspace (according to provided OpenAir format file).
3. Racing tasks and assigned area tasks (AAT) will be used.
4. Start height is limited to 200 m below cloud base and max Start Speed is limited to 170 km/h ground speed.
5. A 3 km radius Finish Ring will be used for the Finish. Min Finish height – 110 m MSL.
6. Penalties:
   - Incorrect Start height up to 50 m – penalty of 0,5 pt/m, from 51 to 100m – 25+1pt/m, more than 100 m – No valid Start.
   - Start speed exceeding up to 20 km/h – penalty 1 pt/km/h, from 21 to 50 km/h – 20+5*(exceeding km/h above 20 km/h). Exceeding more than 50 km/h – No valid Start.
   - Finishing below altitude limit – penalty 1 pt/m.
   - Cloud flying more than 5 s – penalty 50 pts.
   - Entering forbidden airspace (independently how many times per task) – penalty 100 pts.
   - Crash during landing (outlanding or landing in airfield) – penalty 100 pts.

   Note: it is useful to connect phone or PDAs with XCSoar or other software.

The Winners of the Competition will be awarded with prizes established by the Lithuanian Gliding Federation!

Notes:

- We will fly about 200 km long tasks. Flights will take about 1:30 – 2:00 hours.
- After the flight you must send IGC file to email (igc(eta)pociunai.lt). The file must be named according IGC rules with date and competition number (for example, for task on January 14th 2020 the file name of „AB" glider will be „01E_AB.igc")
- The server name will be „LT Open Day01". We will use standard Condor servers in TeamSpeek 3.
- Join Time will be 15 minutes (e.g. 19:00 – 19:15), the Start opens after 10 minutes. Start time is not limited, no matter if the program is set, e.g. 15 min.

Date and time of the Competition

The Competition starts: **2021-01-03 (Sunday)** and ends on **2021-02-21 (Sunday)**.

Server starts at: **19:00 EET.** Flights will be held once a week, on Sundays. It will be **8 tasks**, all will be used for scoring.

The Task, as well as other information will be posted on SoaringSpot website (http://www.soaringspot.com/ltcon21/) 30 minutes before the flight.

If someone will not be able to participate in all tasks do not despire, you give a chance for others to win ☺ !

You can download the landscape for CONDOR2 from here: http://www.condor-club.eu - **Lietuva (Lithuania)**.

I ask all participants to register by sending me an email with information: Name Surname, glider type, registration number, competition number. It will be not allowed to change glider type during the competition!

Until Championships will begin, there will be training flights on Sundays, at 19:00 EET!

Please forward this invitation to all your known Condor glider pilots and, if possible, publish it on gliding websites.

I am waiting for Your registration!

With Best Regards,
Artūras Klimašauskas
